Pan-European provider of exclusive vehicle security services.

Thanks to Cobra, feel safe and secure,
in a simple and reliable way

The only Tracking System tested and approved by Infiniti Europe

At Infiniti we have your peace of mind at heart. The attention to detail that we seek to offer through the Infiniti Total Ownership Experience extends, as you might expect, to advising and assisting customers in protecting their Infiniti. Over 2,300 vehicles a day are stolen throughout Europe*, and 85% of these are stolen with the keys. With today's standard fit alarms and immobilisers, stealing the keys is the easiest way for professional car thieves to steal a car. You can rely on Infiniti Tracking System, the only system tested and approved by Infiniti Europe, designed to integrate perfectly with the entire Infiniti range and approved by the European certifying bodies that work together with insurance companies.

The ultimate protection for your Infiniti

To help you retrieve the irreplaceable, the Infiniti Tracking System gives you access to exclusive services from Cobra Automotive Technologies, a leading international group providing vehicle security services across Europe, South Africa and South America.

Our security experts will assist you 24 hours a day, 7 days a week. If your vehicle is confirmed stolen, your Cobra operator will respond in the quickest and most efficient way.

The reasons to feel safe and secure Pinpoint satellite tracking

Using the latest GPS and GSM/GPRS technology, the system can accurately track and locate your vehicle whenever an alert is received.

The Cobra network of Secure Operating Centres is able to deliver a seamlessly integrated cross-border tracking and recovery service.

The service covers 36 separate European countries, so if your Infiniti is taken abroad your national Secure Operating Centre links with the relevant counterpart to track your car across national borders and liaises with the local police authorities on your behalf, in local language.

A proactive system

Your Driver Card is a discreet pocket-sized card you carry with you whenever you drive your Infiniti. On locking and leaving the car, the system automatically arms itself. If the car is moved without a Driver Card present, the Cobra Secure Operating Centre is alerted instantly to a potential problem.

This means that even if your car is taken using your own keys, it can still be tracked and retrieved. Also, if a thief attempts to disconnect the vehicle's main battery or the system's antenna, or if the car senses lifting or towing, the Cobra Secure Operating Centre is automatically alerted and moves swiftly into action.

Protect your car now with Infiniti Tracking System

Infiniti Tracking System is fitted by Infiniti Technicians to Infiniti standards, designed specifically for your vehicle. Naturally, Infiniti Tracking System benefits fully from the comprehensive Infiniti 3 year warranty.

Once the system is installed, one phone call to Cobra Automotive Technologies and the service is up and running.
